

Changes in AiM 10.2

Login Screen looks different

Work Order Screen

Phase	Description	Location	Shop	Work Code	Priority	Asset	Status
001	Autoclave 1 has heat timeout alarm. Please send to Chris C in Trades.	1615	TRADES	AUTOCLAVES	2	30758	IN PROGRESS
002	Getinge-Autoclave 1 has heat timeout alarm. Please send to Chris C in Trades.	1615	TRADES	AUTOCLAVES	4		EXTERNAL RESOURCES

- Customer Request number will appear on the Work Order screen
- Phase list will indicate if there are Related Documents or Notes on the Phase. Click on the icon to open the appropriate screen.
- Asset tag will appear on the Phase list

Other Work Order Phase changes

- If an Asset with Warranty information is loaded to the Phase, a message will appear to the user.
- Warranty tag will show on the Phase screen.
- Technicians can see all Notes and Related Documents on the Work Order/Phases
- Related Documents will be added to both the Work Order and the Phase when the Customer Request is promoted.

Purchase Request –

- Contractor not required on Non Stock items until record is finalized.

Purchase Request Screen Warehouse functions

The screenshot shows the 'AiM Line Item' interface. At the top, there are buttons for 'Done', 'Add', and 'Cancel'. The main area displays a line item with a yellow header bar containing the number '1' and the text 'Last Edited by ANNA BARWICK On 2/28/20 10:43 AM'. To the right, the 'Purchase Request' is identified as '254646'. Below this, the 'Status' is set to 'Open' and the 'Line Type' is set to 'Stock'. A red box highlights the 'Line Type' dropdown. On the left, there are search fields for 'Warehouse', 'Part', and 'Commodity', each with a magnifying glass icon. The bottom right of the form shows a table with columns for 'Quantity', 'Unit Cost', and 'Total'. The 'Unit Cost' is \$0.0000 and the 'Total' is \$0.00. A red text annotation on the right side of the form reads: 'Line Item Type can be changed from Stock to NonStock after it is created.'

- Line item can be changed from Stock to NonStock after PR is created and before it is finalized.
- Contractor field can be blank until the PR is finalized.

Pick Ticket Warehouse Changes

- On Hand Quantity appears on Pick Ticket main screen
- Line Item screen shows amount already Drawn
